

default_handler

debug_assert::set_level< 1 >

assert_handler

```
graph BT; assert_handler --> default_handler; assert_handler --> debug_assert[debug_assert::set_level< 1 >];
```

The diagram illustrates a branching relationship from a single source to two targets. A box labeled 'assert_handler' is positioned at the bottom center. Two arrows originate from the top of this box: one points to the left towards a box labeled 'default_handler', and the other points to the right towards a box labeled 'debug_assert::set_level< 1 >'. The boxes are arranged in a horizontal line at the top, with 'assert_handler' centered below the space between them.
